

# 100<sup>th</sup> Edition of the insidetrack

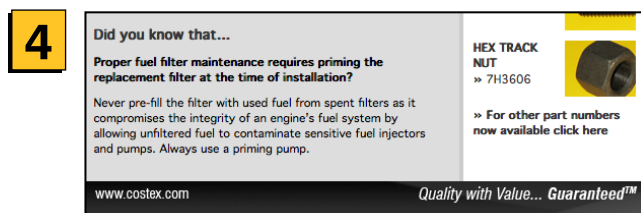

In March 2006, CTP released the very first edition of the Insidetrack, a monthly publication with the latest CTP products and industry news. The idea of keeping our customers informed led us to create a newsletter to be distributed within the community.

Driven by the great acceptance, for the second edition published on April 2006 we had already changed the layout in order to show more CTP products.

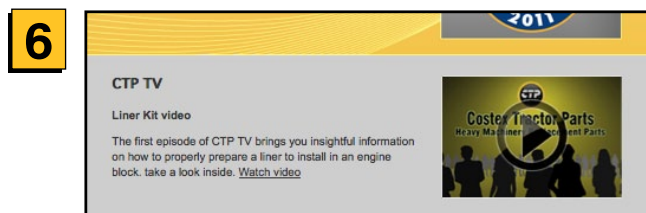

In September 2008 we introduced the new Insidetrack featuring a more renovated look.

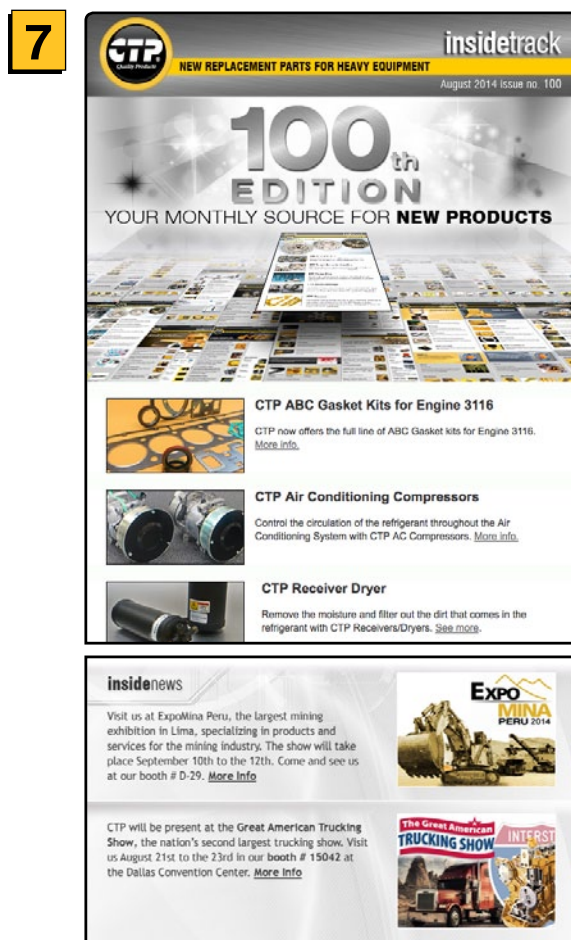

In 2010 we included the "Did you Know.." section in order to provide customers with a few tip regarding parts.

In November 2010, we introduced a newly designed insidetrack.

In our constant effort to provide new tools and innovation to enhance our customer's experience, in January 2011, we launched our first CTP TV video.

Today we are proud of reaching our 100th edition and look forward to continue offering you with the information you need to keep up with the latest industry trends.
